The 5th annual Houston "Design Odyssey" conference was held at the University of Houston, home of the newest (and only) Industrial Design program in Texas. We missed our Louisiana friends, who were still cleaning up after the storm, and they missed some great presentations by Craig Vogel, Elizabeth Lewis, Monique Dermaux and Lewis May. Special Thanks to our sponsors, members, students and other design professionals who attended this year.

many thanks (as always) to our sponsors:
